Lumea Liquid Wax Candles

no hassle candlelight

Safe Unlike wax candles, the flame in a Lumea Candle Lamp is covered and will extinguish immediately if knocked over, so the risk of accidental fires is considerably reduced.

Long burning Lumea's Liquid Wax Candles are long-burning and do not need to be replaced every few hours, so your staff can focus on more important tasks such as providing that all-important customer service!

No mess Our Liquid Wax Candles are specially designed so that they do not smoke or produce a wax residue as they burn – so there are no soot marks to clean off walls or furnishings and no mess to clean off surfaces.

Economical The long-burning and no mess benefits of Lumea Liquid Wax Candles mean that you save money! Our Liquid Wax Candles are competitively priced to provide an affordable, effective alternative to any good quality traditional wax candle.
